

COMPANY PRESENTATION

LAGUNA TECHNOLOGY

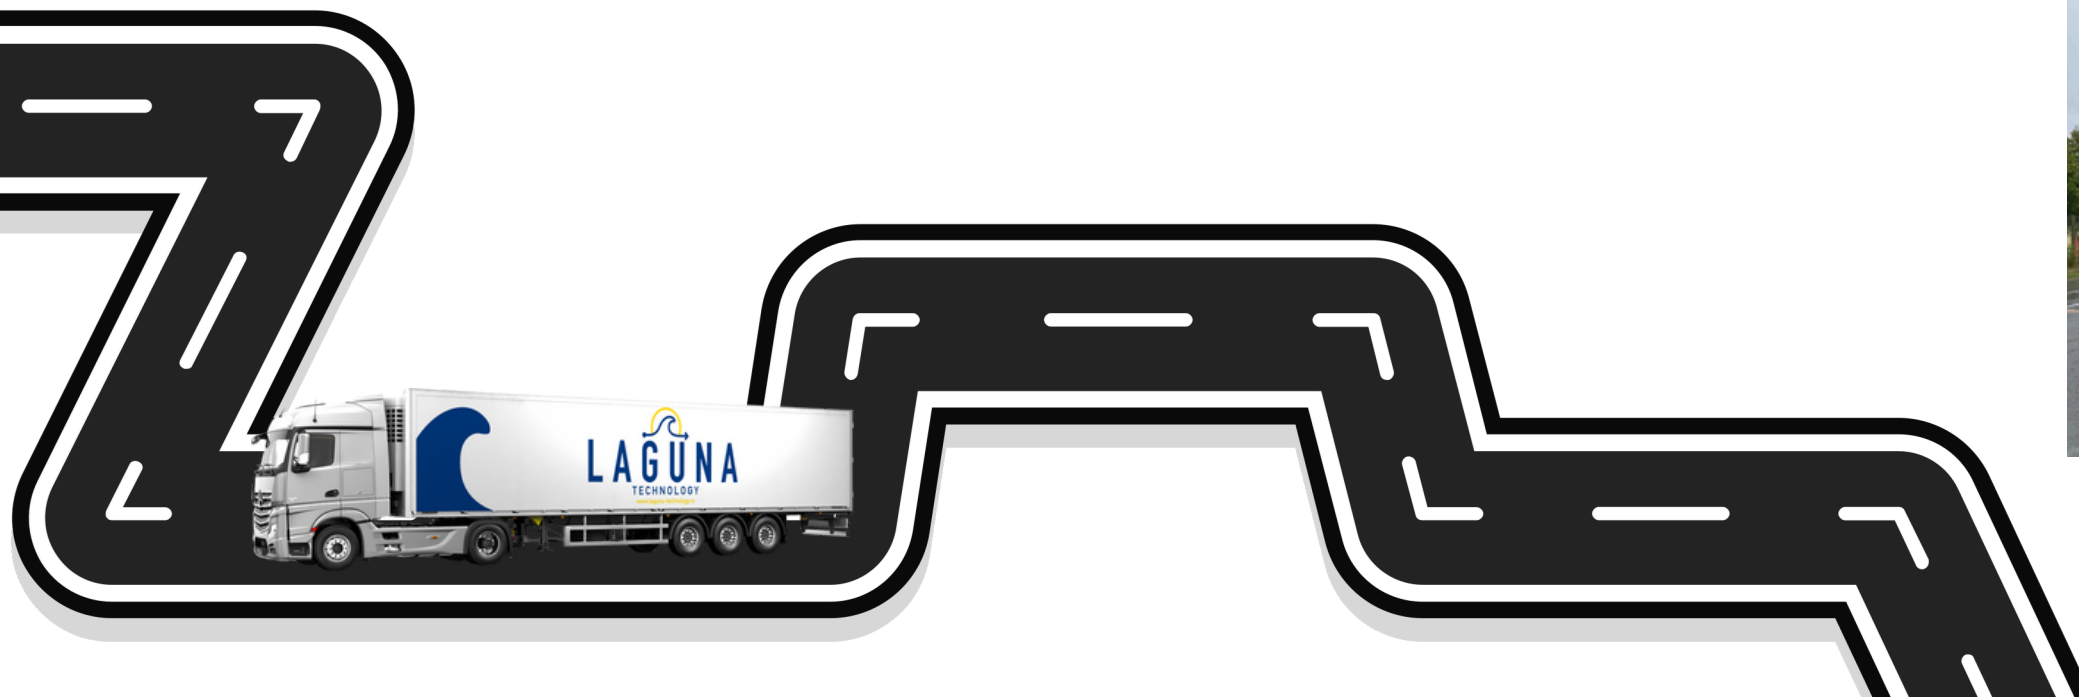

About us

Founded in 2008, Laguna Technology is a representative and dynamic company on the transport market of Europe, specialized in international transport. Our activity is sustained by an energetic team of 50 office personnel and 280 drivers.

Our fleet

Our fleet consists of 160 Euro 6 trucks and frigo semi-trailers, which are renewed every 2 years, ensuring the highest safety standard of transport.

Mission, Vision, Values

Mission

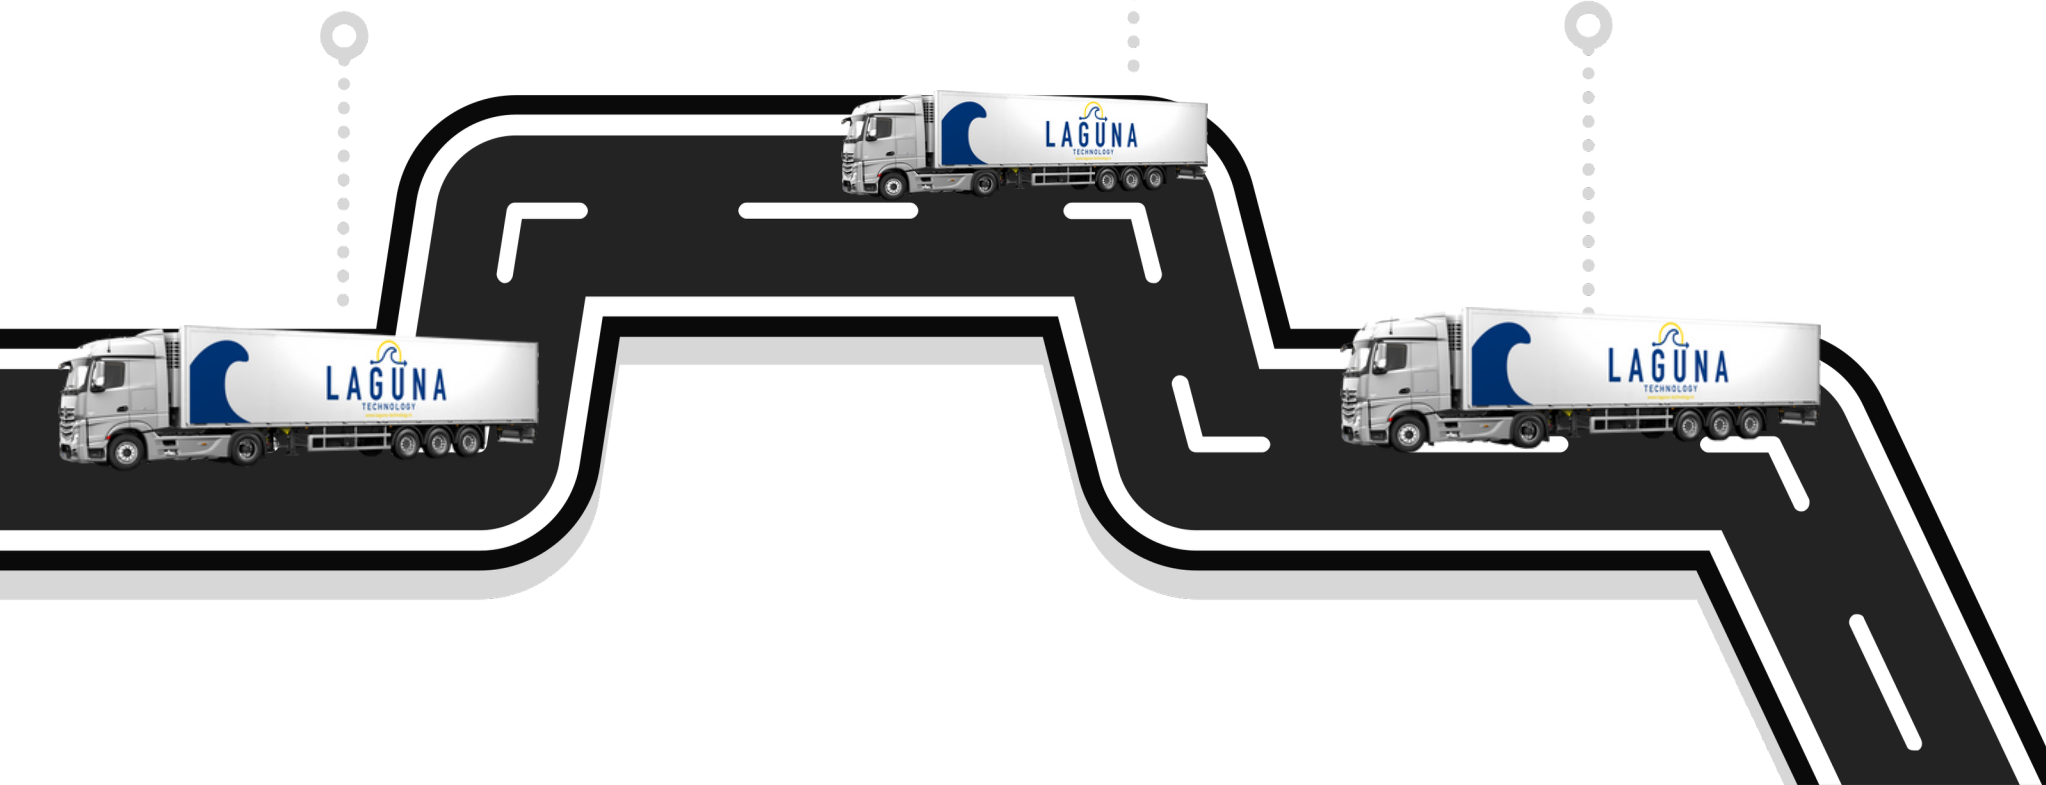

Restlessly providing exceptional transport services for global partners.

Vision

Driven by passion and proficiency, we aim to reshape the transport industry through highly sustainable, transparent and innovative practices.

Values

Integrity, Efficiency, Transparency.
